

HoistCam™ Repeater for Telescopic Booms

Blind lifts for large cranes where line-of-sight is impossible for the operator are now a thing of the past. The wireless HoistCam™ (<http://www.hoistcam.com>) repeater from Netarus is designed to be used with our rapidly deployable camera systems. HoistCam places the eyes and ears of the crane operator anywhere. Safety is increased, and efficiency improved by making instant visual information available anywhere.

Wireless Repeater (RPT103)

Wireless Repeater (RPT103) Attached to Boom Tip with HoistCam
