

Stainless Steel Dual Wireless Camera

The HoistCam™ (<http://www.hoistcam.com>) from Netarus is a dual wireless electronic night/day camera platform. For corrosive environments such as marine ports, the HC220 Series HoistCam places the eyes of the crane operator anywhere on the job. Safety is increased, and productivity improved by making instant visual information available anywhere.

**Dual Day/Night Vision HoistCam
with Infrared Illuminators
(HC220 / HC223 / HC225)**

BENEFITS

- Eliminate blind lifts and improve positioning
