

# Mini HoistCam™ for Overhead Cranes HC120

Blind lifts for overhead cranes where line-of-sight is impossible for the operator are now a thing of the past. The cost effective three-part wireless HC120 series HoistCam™ (<http://www.hoistcam.com>) from Netarus is designed to the eyes of the crane operator anywhere. The HC120 model is designed to be connected directly to 12VDC on the overhead crane while the HC123 model uses an external battery pack. Safety is increased, and efficiency improved by making visual information available anywhere.
